Empowering Structures

Amprime Ace - C

Amprime Ace - C is a modified chloride based admixture with permits quick setting of unreinforced concrete and accelerates its early strength, helping to increase the progress of work.

Application:

1. Excellent Floor Hardness.
2. Fast de-shuttering.
3. Teeming hand concretes in short time.
4. Works as anti-freezing at early stage.
5. Roofs, Floors, Unreinforced Concrete flooring, Bricks, Dry Cost and various other places.

Packaging :

1L, 5L, 20L, 200L, 1000L on as per requirement.

Dosage:

500 ML in 1 Bag of Cement (per bag 50Kg)

Advantages:

1. Low cost
2. Eco Friendly
3. Increases mould Life.
4. Promotes faster completion of work.
5. Gains higher strength at early stage.
6. Early stripping time of the mold

Storage:

Store at dry place.

Room Temp 5'C to 40'C

Shelf Life:

1. 12 Month From date of manufacturing
2. Unopened and originally sealed
